

E8 Midnight Silver (ED)

Loved, coveted, admired

JURA's most successful automatic coffee machine model is now in its fifth generation, with pioneering convenience features and an impressive three worlds of indulgence. Classic Hot Brew, Light Brew and Sweet Foam create the incomparable coffee moments that can be experienced with the E8.

The E8 is designed in line with all JURA standards and also incorporates the Light Extraction Process to allow you to savour your favourite beverage to perfection. It prepares hot-brewed coffee in the traditional way for an intense flavour experience and extracts Light Brew at around 60 °C for a lighter, ready-to-drink coffee. Whether hot or light, both worlds of indulgence can be combined with the Sweet Foam function, which opens up additional flavour experiences.

The E8 also incorporates smart technology such as the Coffee Timer. This feature allows you to programme your morning coffee using the J.O.E.[®] app and enjoy it freshly ground and prepared as soon as you get up.

The new generation of JURA automatic coffee machines with the Quality Assistant is designed for daily routines and that little bit of extra sustainability. It ensures even better coffee quality and an even longer machine life.

The E8 oozes style and, thanks to its 27 cm width, makes an impressive impact even in smaller kitchens, both in terms of design and coffee experience.

Benefits at a glance

- The E8 combines three worlds of indulgence and creates 27 speciality coffees
- Greater ease of use thanks to Coffee Timer and Quality Assistant
- Iconic design
- The P.A.G.2 grinder guarantees precise results, consistent performance and a long service life

E8
